

# Kinetico SRS

## Scale Reducing System

A Saltless Option for Treating Water

 **Kinetico**<sup>®</sup>  
water systems

- Protects and Improves Energy Efficiency of Hot Water-Using Appliances and Fixtures from Damaging Scale Build-up
- No Electricity, Chemicals or Salt Needed
- Simple, Reliable and Economical Operation
- Compact Design

## What Makes The Kinetico SRS Different?

- Prevents Scale Buildup.** Reduces hardness deposits in appliances that heat water. Protects hot water pipes and fixtures from scale build-up.
- Improved Efficiency of Appliances.** Water-using appliances work better, last longer and operate more economically without the problems typically associated with scale buildup. Reduces the need for frequent repairs or replacement.
- Non-electric Operation.** Reliable. No timers or computers to set, adjust, repair or replace.
- No Salt Used.** No need to add salt and no brine discharge.
- Highly Efficient.** No wasted water, chemicals or electricity.
- 24/7 Automatic Operation.** No regeneration down time. No daily limit to treated water. No need to do anything to the system between maintenance visits.
- Water Feels the Same.** Eliminate the way hard water harms your home without changing the way your water feels when bathing. Continue to use soaps and shampoos as usual.
- Infrequent, Simple Upkeep.** Your authorized Kinetico dealer will easily replace the high quality, long-lasting media every year or so at the installation site.
- Simple Installation.** Space-saving design. No extra tanks, drain lines and complicated plumbing are necessary.
- Corrosion-Resistant Tank.** Long lasting. Can endure harsh environments.
- Outstanding Warranty.** Dependability, peace of mind.
